

# PAVANATMA COLLEGE MURICKASSERY

NAAC RE-ACCREDITED A GRADE COLLEGE  
(Affiliated to Mahatma Gandhi University, Kottayam)

## AGREEMENT

Agreement executed on 18 April 2018 between Sijo Jose, S/o Jose, Pulimala House, Vazhakulam P.O, Nadukkara (hereinafter referred to as The Programmer), and The principal, Pavanatma College, Murickassery, Kerala on behalf of Pavanatma College, Murickassery, Kerala (hereinafter referred to as The College).

Whereas the College has decided to introduce online ERP solution for automation of its academic and administration management, with features and GUI specifically in accordance with the institutional requirements, a software named "Pavanatma Academic and Administrative Management System", abbreviated as "PAAMS", is decided to be developed through the collaboration between the Programmer and the College. The details of the said collaboration form part of this agreement.

### Rights and Responsibilities

It is the responsibility of the college to take all the necessary steps, including payments and queries, to install the software project PAAMS on the college's account of the internet Service Provider's (ISP) computer (hereinafter referred to as hosting service). The college hereby authorizes the Programmer to access this account, and authorizes the Hosting service to provide the Programmer with full access to the college's account to build PAAMS and any other programs needed for the software project.

It is the responsibility of the college to provide the programmer with all the details of GUI designs, modules, reports and other features and functionalities of the software. The college authorizes Dr. Saji Joseph, Head of the Department of Physics & IQAC Coordinator to communicate and provide the structure of the ERP software with the Programmer. The responsibility of the programmer lies only with the coding of the software. It is decided to develop the software with the .NET framework.

The programmer has the responsibility to develop the software without taking any remuneration from the college. However, the programmer has the freedom to sell the source code or application to anyone he wishes, with or without modification and with or without monetary gains. In any such deals, the right of the college for continued use of the software and its modification shall be protected. The college cannot make any claims on the revenue generated through any such deals by the programmer.

During the development of the software, the college has the right to demand the installation of the software in the college's hosting space with the modules already developed, without waiting for the completion of all the modules. It is the responsibility of the programmer to install the completed modules and any other programs needed for the software project, on any such demand from the college.

The college and the programmer have the right to withdraw from this agreement at any time, by serving a one month notice to the other party. If the programmer withdraws from the agreement, he has the responsibility to share the entire source code to the college in its form when the agreement ceased to exist, while keeping a copy of it with him for future use and modification. If the college withdraws from the agreement, the college has no claim on the source code, but it can continue to use the build version in its form when the agreement ceased to exist.

## The modules and features of the PAAMS software

PAAMS will be developed and installed in the college's hosting space with the following modules, sub modules and features :

### 1. Establishment Related:

#### a. Institutional

- i. Manage Academic Year, Staff Designation, Password
- ii. Manage User Permissions, Home screen messages
- iii. Manage Departments, Programmes, Batches
- iv. Manage Cells, Forums
- v. Principal, HoD entry/change
- vi. Tutor, Mentor entry/change
- vii. Stock Management

#### b. Student, Staff Related

- i. Student enrolment
- ii. Student profile
- iii. Student transfer, termination
- iv. Staff enrolment
- v. Staff profile
- vi. Staff termination

#### c. Curricular structure management

- i. Internal examination management
- ii. OBE management
- iii. Academic calendar generation
- iv. Semester promotion management

### 2. Academic/Tutorial Related:

#### a. Programme Management

- i. Registration of Students to courses
- ii. Timetable
- iii. Manage Extra classes
- iv. Attendance

#### b. Evaluation Related

- i. Internal marks entry
- ii. Mark list, Grade sheet generation

#### c. Staff Performance Appraisal

- i. Daily Appraisal, Monthly Reports
- ii. Profile updating

### 3. Student Support:

#### a. Manage Mentoring/Counselling Activities

- i. Mentoring, stage1-Student allotment, activity recording
- ii. Mentoring, stage2- Activity recording

#### b. Alumni, Progression Management

- i. Progression details
- ii. Placement details
- iii. Awards/Recognition details

#### c. Grievance redressal management (Department/Mentor level)

- i. Academic Grievances
- ii. Non-academic grievances

*Syo Jose*  
Syo Jose

PRINCIPAL  
PAVANATMA COLLEGE  
MURICKASSERY, IDUKKI DIST.

- d. **Remedial Coaching**
    - i. Student registration
    - ii. Attendance management
  - e. **Advanced Learner management**
    - i. Student registration
    - ii. Attendance management
- 4. Enrichment Programmes:**
- a. **Cell Activities**
    - i. Coordinator allotment
    - ii. Student Registration
    - iii. Manage activities, Generate activity reports
  - b. **Add-on programmes**
    - i. Student Registration
    - ii. Attendance
    - iii. Evaluation
  - c. **Value Education**
    - i. Attendance
    - ii. Evaluation
- 5. Research:**
- i. Major, Minor, other project details of staff, students

The programmer is responsible for developing the above mentioned modules and any additional features or modules that the college may find necessary for its academic and administration management within a time period agreed upon by both parties.

### **Completion**

The College and the Programmer agree to work together to complete the Software Project in a timely manner. The college agrees to provide the Programmer with all the details that he may find necessary to develop the modules and the GUI at the shortest possible time. On completion of the development of the software to the satisfaction of the college, the Programmer will install the software in the client's web hosting space within one week.

### **Training for the concerned staff of the college**

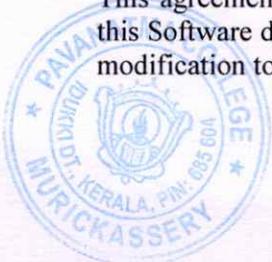

The responsibility of training the staff lies summarily on the college, and the programmer does not take any responsibility of any staff training.

### **Future Updates, Maintenance**

As long as this agreement is valid, the programmer holds the responsibility of making any updates or addition of features that the college suggests. The programmer also holds the responsibility of correcting any errors that may occur during the implementation of the software by the college. The College is solely responsible for all domain registration/renewal and hosting service charges.

### **This Agreement**

This agreement constitutes the sole agreement between the College and the Programmer regarding this Software development Project. Any additional work not specified or any other amendment or any modification to this contract must be authorized by a written request signed by both parties.
