PRINCIPAL SPEAKS

It gives me immense pleasure to pen a few words for our newsletter. This is my second year in this institution as a Principal and I feel really honoured and proud of becoming part of Pavanatma.

As you all know that education is the key to empowerment. The word 'Education' does not mean mere acquisition of knowledge but acquisition of knowledge and skills, building character and improving the leadership qualities. We provide the students ample opportunities for development, in this direction.

We conduct different activities like NSS, NCC, ASAP, Walk With a Scholar, SSP, anti narcotic club etc. to cultivate in them an attitude for social service, discipline and for understanding one's rights and duties. Sincere attempts are made to create a safe social and physical environment that helps our students learn and succeed. It is our earnest belief that the students would carry the values imbibed here to greater heights and that this environment helps them to become better citizens of our country.

I wish you all the best for achieving greater success in life.
